

Shenzhen SOSEN Electronics Co.,Ltd

Product Retirement

Dear partners,

Influenced by market demand, technological innovation, global regulation, standard update and replacement of current products, SOSEN will gradually eliminate some products entering the recession period and constantly launch more competitive new products. The following is the list of models to be discontinued. If there is still demand for these models, please place order before the discontinued date.

For customized products(Not included in the following list), if there is no order within a year, they will enter the state of pre-discontinued. Within three months after the pre-discontinued, products with power of 320W and below, with an order of less than 1000 sets, and products with power of 320W and above, with an order of less than 500 sets, will enter EoL stage and will not receive orders.

Please feel free to contact your SOSEN sales representative if you have any questions. We will continue to provide quality products and services!
